

*Dear partners,*

We would like to inform you that following the negotiations held between FGSZ Ltd. and SNTGN TRANSGAZ SA the Amendment to the *Interconnection Agreement* concluded between the two companies was signed, according to which it is expected that, starting with 1 October 2022, at the Csanádpalota interconnection point (EIC: 21Z000000000236Q), in the direction Romania → Hungary, the technical capacity will be 3,057,174 kWh/h (25°C/0°C), equivalent to 280,000 Scm/h (15°C), compared to the 200,000 Scm/h (15°C) at present.

The capacity increase will be reflected in the auction notices published on the Regional Capacity Booking Platform Portal, [Portal RBP](#).

Yours sincerely,

*SNTGN Transgaz SA*
