

01.10.2020

Dear Partners,

We would like to inform you that, in the context of the current global situation generated by the COVID-19 pandemic, as well as the related measures imposed by the Romanian authorities, SNTGN Transgaz SA expects to increase the technical capacity in PI Csanádpalota in the RO>HU direction, from 0.75 bcm/year - to 1.75 bcm/ year, starting with 01 December 2020, after the completion of the works related to the BRUA 1 project. Until then, tenders for the bundled/unbundled capacities offered at the interconnection point:

- Csanádpalota RO>HU (EIC code: 21Z000000000236Q, GMOIS code: SM1281D0)

will have as reference the maximum technical capacity of 21.520.269 kWh/day (896.678 kWh/h) (25°C/0°C), or 2.055.000 Scm/day (15°C/15°C), respectively 0,75 bcm/y.

On Transgaz' website, in the *Customers - Operational information - Capacities* section, the technical, booked and available capacities are published and for each separate product, the tender announcements regarding the capacities offered for this period are available on the [RBP Portal](#).

Your sincerely,

SNTGN Transgaz SA
