No. 13448/22.03.2017

Submitted for approval in the OGMS meeting of 27/28 April 2017

REPORT

on the proposal for the distribution of the 2016 financial year net profit

SUMMARY

The net profit was distributed according to *Government Ordinance 64 of 30 August 2001 on the distribution of profits in national companies and trading companies owned by the state or where the state is a majority shareholder and the autonomous administrations* in terms of applying 90,00473% to profit as dividends. The distribution share foreseen in the revenue and expense budget of SNTGN Transgaz SA approved by OGMS Resolution 1/21.03.2016 was of 50% and by Government Memorandum the representatives of the state in the General Meeting of the Shareholders/Board of Administration, as appropriate, were mandated to decide the distribution of a minimum 90% share of the net achieved profit related to 2016 as dividends/payments to the state budget.

PROPOSAL

According to Art. 15.3 (f) of the updated Articles of Incorporation of SNTGN TRANSGAZ SA, we submit for approval:

1. the distribution of the net profit as follows:

- dividends to the shareholders	RON 545.482,192,52
- profit for the establishment of own financing sources	RON 49.082.737,48

2. employee participation in profit according to Art.141 of the applicable Collective Labour Contract concluded by SNTGN TRANSGAZ SA, in amount of RON 11,494,560.00.

Net profit to be distributed according to the financial statements and to the statement of comprehensive income after the deduction of the income tax amounts to **RON 594,564,930**.

The proposal for the distribution of the net profit for 2016 is according to *Government Ordinance 64/2001 on the distribution of profit in national companies and trading companies owned by the state or where the state is a majority shareholder and the autonomous administrations*, as further amended and supplemented, and to the specifications approved by *Order of the MPF 144/2005 on the approval of the Specifications for the determination of the amounts subject to profit distribution according to GO 64/2001 on the distribution of profits in national companies and trading companies owned by the state or where the state is a majority shareholder and the autonomous administrations, as amended and approved by Law 76/2001*, as further amended and supplemented

Net profit was allocated as dividends according to the 90,00473% share. The distribution share foreseen in the revenue and expense budget for 2016 approved by OGMS Resolution 1/21.03.2016 is of 50% and by Government Memorandum the representatives of the state in the General Meeting of the Shareholders/Board of Administration, as appropriate, were mandated to decide the distribution of a minimum 90% share of the net achieved profit related to 2016 as dividends/payments to the state budget.

The calculations for the net profit amounts distributed are indicated in the Annex to this report, as further amended and supplemented, on which we make the following clarifications:

- ↳ no amounts were distributed to the legal reserves as they are presently constituted under 20% of the share capital, according to Art. 183 (1) and (2) of Law 31/1990, as further amended and supplemented;
- ↳ the employees participation in the profit was determined within the limits of the average monthly base salary per employee in 2016, according to the number of employees in the financial year ended;
- ↳ dividends due to shareholders were determined according to OMPF 144/2005, by applying 90,00473% to the net profit after its reunification with the amount of the costs representing employee participation to the profit, affecting the gross profit before taxation;
- ↳ the retained earnings, for establishing own financing sources, were determined as the difference between net profit to be allocated and the profit proposed to be allocated according to GO 64/2001.

The proposal regarding profit distribution according to GO 64/2001 is presented in the table below:
