No.13379/22.05.2008

PRESS RELEASE

TRANSGAZ notifies all those concerned that the interconnection of the “Gas pipeline supplying Giurgiu” with the National Gas Transmission System was completed. The above-mentioned gas pipeline ensures the gas supply to Giurgiu and to the towns located on the pipeline’s route, i.e. Crevedia Mare, Bucsani, Clejani, Letca Noua, Ghimpatii, Schitu, Stoienesti, Fratesti.

The technical details of such pipeline are as follows: diameter – 500 mm, maximum working pressure – 40 bar, length – 67.61 km, installed flow rate – 50,000 Scm/h.

Value of pipeline building works amounted to approx. EURO 13 million.

The works thereof were completed in 2007 and the interconnection of the pipeline with the National Gas Transmission System was currently accomplished.

The opportunity of such investment is supported by the fact that the supply of gas to new regions both revitalizes and fosters the region’s economic activities and improves the population’s degree of comfort.

Ioan RUSU

Director General
