REPORTED EVENTS: announcement regarding the transmission capacity trade of the **Isaccea III – Negru Vodă II** pipeline

SNTGN Transgaz SA informs all those concerned that, due to objective reasons, related to the complexity of the issues which occurred during the steps taken for the conclusion of the interconnection agreements with the adjacent transmission system operators, it was impossible for these agreements to be concluded in due time, therefore the provisions of the *Order of the NERA President no.159/2015 on the approval of the Capacity allocation and tariff setting methodology for the gas transmission pipeline Isaccea III – Negru Vodă II* cannot be applied starting with December 1, 2015.

SNTGN Transgaz SA still undertakes all necessary efforts to conclude the abovementioned agreements so that the capacity of the Isaccea III – Negru Vodă II pipeline can be traded by auction starting with the gas year 2016 – 2017 according to the CAM NC calendar. We would like to mention that for the period 1 January-30 September 2016 the transmission capacity related to the Isaccea III – Negru Vodă II pipeline was booked by the extension, under the same conditions, of the current gas transmission contract.
